

Download Abb Instrument Transformer Guide

Instrument transformers will transmit the signal to the metering and protective relaying instrumentation, with the purpose of protection of important equipment. Instrument transformers will operate successfully under many atmospheric conditions and transients, and switching overvoltages. The SCR and SCR-D current transformers are used as the source of current for relaying and metering. The deeper case SCR-D is used when high burden relaying and metering is required. Products and services We have a complete portfolio of industrial technology products for customers in utilities, industry, transport and infrastructure. ABB Medium Voltage MV Indoor Current Transformers CT's, up to 25kV - ABB TPE. ABB MV Indoor / Outdoor Current Transformers ABB MV Indoor Supporting Current Transformers CT's
