this exam includes some parts all of the quizzes i offer but you may purchase separately if desired. [A Pedagogical Philosophy. a.k.a. A Guide to General Chemistry. The following was originally meant as a guide to help students get into the right mindset for studying general chemistry as I (M.A.Freitag) present it, but over the years it has evolved into a general explanation of how I approach the courses I teach. The timeworn and pedestrian answer is simply "to get to the other side." Here are some creative and original answers: The chicken crossed the road. Key Concepts. Adding energy (heating) increases molecular motion. Increased molecular motion competes with the attraction between solute molecules and tends to make them come apart more easily.
