

Download Chris Boardman The Biography Of The Modern Bike The Ultimate

Heavily illustrated, often in full colour, Chris Boardman's lengthy book covers the development of bikes from the original boneshakers through to the modern high-tech wind tunnel-tested engineering marvels. Along the way there is a fair amount of history of professional cycle racing, such as Graham Obree's career and his pioneering of two new aerodynamic positions to race in. Fascinating stuff. Author description. Chris Boardman is a bike designer, former track world record holder, Olympic gold medallist and winner of stages on the Tour de France (he still holds the record for the fastest Prologue). 1992 gewann Chris Boardman olympisches Gold in der 4000-Meter-Einerverfolgung. Er war vor allem bekannt als Einzelzeitfahrerspezialist und hielt bis zum 19. Juli 2005 den Stundenweltrekord.
