

Download Energy Flow Webquest Answer Key

Atoms Around Us What is an atom? Atoms are building blocks. If you want to create a language, you'll need an alphabet. If you want to build molecules, you will need atoms from different elements. Question: What was the loudest sound ever described by humans? Hint: It was produced by the most famous volcano in recorded history. Answer: In 1883, the Krakatoa volcano in Indonesia erupted and threw ash and stone 300 square miles. Chemical Changes Versus Physical Changes It is important to understand the difference between chemical and physical changes. Some changes are obvious, but there are some basic ideas you should know. Chemistry CP provides students with a comprehensive study of the nature of matter and the changes it undergoes. This course is appropriate for most college bound students.
