Introduction to Information Retrieval. This is the companion website for the following book. Christopher D. Manning, Prabhakar Raghavan and Hinrich Schütze, Introduction to Information Retrieval, Cambridge University Press. 2008. Information Retrieval [??nf??me??n ???t?i?v?] (IR) oder Informationsrückgewinnung, gelegentlich ungenau Informationsbeschaffung, ist ein Fachgebiet, das sich mit computergestütztem Suchen nach komplexen Inhalten (also z. B. keine Einzelwörter) beschäftigt und in die Bereiche Informationswissenschaft, Informatik und ... Information retrieval (IR) is the activity of obtaining information system resources relevant to an information need from a collection of information resources. Graph theory and the fields of natural language processing and information retrieval are well-studied disciplines. Traditionally, these areas have been perceived as distinct, with different algorithms, different applications, and different potential end-users.
