Computational Methods for Electromagnetic and Optical Systems (Optical Science and Engineering) [John M. Jarem, Partha P. Banerjee] on Amazon.com. \*FREE\* shipping on qualifying offers. The current rapid and complex advancement applications of electromagnetic (EM) and optical systems calls for a much needed update on the computational methods ... Electromagnetism is a branch of physics involving the study of the electromagnetic force, a type of physical interaction that occurs between electrically charged particles. An electromagnet is a type of magnet in which the magnetic field is produced by an electric current. The magnetic field disappears when the current is turned off.
