

Download Other Voices Readings In Spanish Philosophy

Of special interest are the selection from Feijóo's "A Defense of Women" (an attack on misogyny), which has not been translated into English since the eighteenth century; the arguments on the justification of war by Vitoria and Las Casas (in the context of the Spanish conquest); and Unamuno's celebration of the concrete over the abstract, desire over reason. "A long overdue resource for scholars and for instructors in courses in the history of philosophy, this anthology makes available to English-speakers a concise collection of some monumental works of Spanish philosophical thought. Because a significant part of the foundations of Latin American philosophy can be traced to Spanish philosophy, the increased interest in the former has naturally spilled over into the latter. Other Voices has 1 rating and 0 reviews. English-speaking philosophers are generally attuned to the German and French philosophical traditions but not to...
