

# **Download Pagan Virtue An Essay In Ethics**

This chapter argues that the classical virtues of courage, temperance, practical wisdom, and justice, which are largely ignored in modern moral philosophy, centrally define the good for Man. The study of the virtues has largely dropped out of modern philosophy, yet it was the predominant tradition in ethics from the ancient Greeks until Kant. Traditionally the study of the virtues was also the study of what constituted a successful and happy life. Drawing on such diverse sources as virtues is in tension, at least, with fundamental Christian assumptions about the nature of the moral life. For both these reasons, his book deserves serious attention, especially by those scholars who argue for a special congruity between virtue theory and Christian ethics.
