This volume brings together leading investigators who integrate two distinct research domains in social psychology--people's internal worlds and their close relationships. A growing body of leadership literature focuses on leader and follower identity dynamics, levels, processes of development and outcomes. Despite the importance of the phenomena, there has been surprisingly little effort to systematically review the widely dispersed literature on leader and follower identity. Part One: A Brief History of Emotional Intelligence Emotional Intelligence: Roots in IQ Measurement The idea of measuring intelligence took hold in the early part of the twentieth century and resulted in the interest in leadership development is strong, especially among practitioners. Nonetheless, there is conceptual confusion regarding distinctions between leader and leadership development, as well as disconnection between the practice of leadership development and its scientific foundation.
