

Download Testing Women, Testing The Fetus

""Testing Women, Testing the Fetus is a compelling ethnography of the lived experience of geneticization of American society. It is a deeply human account of the embeddedness of reproductive technologies in fundamental social processes involving gender, class, political economy, and moral contestation. If more women were accurately counseled about what exactly cell free DNA is testing, they would immediately understand that their test results are never diagnostic. CDC recommends Zika virus testing for. Anyone with possible Zika virus exposure* who has or recently experienced symptoms of Zika. Symptomatic pregnant women with possible Zika virus exposure Perspective from The New England Journal of Medicine — Supporting Women's Autonomy in Prenatal Testing
