I first read this book over twenty years ago, when it was first released and loved it. I decided that it was time to give it another go around to see if my original opinion of it still held. Later, the professor in the novel says that it is not a keep; it is unique; the professor says it was called the keep probably for lack of a better name. That is all that I see which is in the book. Probably F. Paul Wilson thought the title: The Keep was better than the title: The Unique Structure which had No Name.
