Book Excerpt: Mrs. Frederick's car horn beeped and Mom opened the door. But instead of leaving, she gasped and slammed the door shut. I almost choked on my cereal. "The Peril of the Sinister Scientist" is about Joshua, a middle school boy, son of a single mother. He's always wondered who his father is but his mother hasn't told him. Finally, the truth will out. A man comes to his town - a sinister scientist. Joshua needs to know what Jesus would do in Middle School. He thinks he may have been cloned from the blood on the Shroud of Turin because a scientist who worked on that experiment is stalking him. Meanwhile, Joshua feels certain the scientist is stalking him. He avoids him by running and hiding in various places. On one occasion, he uses the library as a refuge. While there, the librarian directs him to some books about the Shroud of Turin. Through his research, Joshua discovers that the Turin was the burial cloth that was supposedly wrapped around Jesus after he was crucified. The image of a face and blood remained in the cloth.
