

# **Download You Know Love Me Gossip Girl 2 Cecily Von Ziegesar**

I started this series about 2 weeks ago and I'm on book #4. These books make you want to pick them up and read them all day (and night)! If you love the TV show, you will love the books. I just don't know why I keep reading. I should quit, but I hate not finishing a series to the end once I've started. As I've said in almost every other review for this series, I prefer the show.
